CASE CLASSIFICATION SHEET TASK REPORT

Pharmacovigilance ICSR Categorization & Regulatory Triage

Ref Code: CC-FORM-003
Standard: GVP / ICH E2D
Status: Final Draft

1. CASE CLASSIFICATION CRITERIA & PARAMETERS

Classification Parameter	Evaluation Criteria	Category / Status
Seriousness Triage	Death, life-threatening, hospitalization, disability, congenital anomaly, or important medical event.	SERIOUS / NON-SERIOUS
Expectedness (Labeling)	Comparison of reported adverse event against Investigator's Brochure (IB) or Reference Safety Information (RSI/SmPC).	EXPECTED / Unexpected
Causality Determination	Assessed drug-event relationship established by primary reporter or company safety evaluator.	RELATED / UNRELATED
Case Validity Check	Verification of 4 minimum criteria: identifiable patient, identifiable reporter, suspect drug, and adverse event.	VALID ICSR

2. REGULATORY EXPEDITED REPORTING TIMELINES

Case Category Combination	Regulatory Submission Requirements	Expedited Timeline
SUSAR (Serious, Unexpected, Related)	Mandatory expedited submission to regulatory authorities (FDA, EMA, MHRA, CDSCO) & Ethics Committees.	7 OR 15 CALENDAR DAYS
Serious Expected Related	Expedited reporting or inclusion in periodic safety update reports (PSUR/PBRER) depending on region.	15 CALENDAR DAYS
Non-Serious Valid Cases	Compiled and submitted in aggregate safety reports (PSUR / PBRER / PADD).	PERIODIC AGGREGATE
Invalid / Incomplete Cases	Held in safety database pending follow-up queries to obtain missing mandatory elements.	FOLLOW-UP ACTIVE
